SUMMARY

Driven MCA student and Associate Software Engineer candidate with strong problem-solving ability, proven adaptability, and a track record of consistent achievement. Recognized for analytical thinking, teamwork, and committed to continuous growth and eager to contribute to projects that demand creativity, reliability, and measurable impact.

EDUCATION

Pranveer Singh Institute of Technology, Kanpur

Jul 2025 - Jun 2027

Master of Computer Applications (MCA)

Virendra Swarup Institute of Computer Studies, Kanpur

Jun 2022 - May 2025

Bachelor of Computer Applications (BCA)

PROJECTS

University Management System

- Built a Java and MySQL application to support day-to-day university or college operations through structured data management. Designed database-backed components for academic and administrative information. *Technology: Java | MySQL*

AI Attendance System

- Developed a face-recognition-based attendance system with real-time, subject-wise tracking. Integrated MySQL-backed records, frontend views, and WebSocket communication for efficient monitoring.
Technology: Python | React.js | MySQL | WebSocket | REST API | GitHub

Research Buddy

- Built an AI-assisted research companion to collect, organize, and summarize research material. Implemented topic-based organization, saved resources, and concise summaries. *Technology: React.js | Node.js | MongoDB | REST API*

TECHNICAL SKILLS

Web Technologies JavaScript, HTML5, CSS3, React.js, Node.js, REST APIs

Data & Tools Data extraction, web technologies, GitHub, Jira, Selenium, JMeter

Databases MySQL, Oracle, MongoDB (Basic)

Web & Integration HTML5, CSS3, React.js, Node.js, REST APIs, WebSocket

CORE COMPETENCIES

- Responsive web application development
- REST API integration
- Data extraction and organization
- Problem solving and debugging
- Database-backed systems
- Adaptability and learning agility

CERTIFICATIONS

Generative AI - Oracle Cloud Infrastructure and UNICEF | Full Stack Development | AWS Certified Developer

ACHIEVEMENTS

- Solved 200+ problems on Leetcode, demonstrating consistent algorithmic and problem-solving practice.

STRENGTHS

Problem Solving • Critical Thinking • Data Structures & Algorithms • Debugging • Adaptability • Learning Agility
